EXPERIENCE

MINI PROJECTS

CAMPUS APP 2022

- APP Build for students of our college.
- The project provides various facilities to ease the life of students on campus.

Events APP 2023

- APP provides a single platform to get to know about all the core events happening in college with their timeline and registration link.
- There is also an admin app for event managers to update the event details according to their needs.

Recipe Directory Web APP 2023

- Web App build with react that helps to manage all your recipes under one hood with the features of CRUD operations through Firebase.
- It also shows step-by-step instructions and ingredients for a recipe.
